

REQUIREMENTS CONSUMPTION REVIEW (RCR)

Buyer's cross-functional team may conduct a Requirements Consumption Review (RCR) with Seller to establish confidence that Seller understands contract and engineering requirements imposed on this contract. The goal of the RCR is to deploy a collaborative tool for earlier supplier engagement to ensure the successful execution of contract and/or technical requirements.

If a RCR is deemed required by Buyer, Buyer's Supplier Quality Representative and/or procurement agent will communicate and coordinate with Seller to schedule the RCR as an early involvement activity, intended to be performed prior to start of manufacturing and/or servicing of goods.

Seller shall make records of contract requirements review, production planning, training and any other applicable records readily available at time of RCR. Buyer reserves the right to review Seller's flow-down of contract and engineering requirements to Seller's subcontractor(s).
