Abstract of New Technology Under Patent Rights

Seller agrees to submit an abstract of new technology describing each item reportable as a subject invention under the patent rights clause of this contract. Seller may delay delivery of the abstract until such time as delivery of the complete technical disclosure or a copy of the patent application is required under the patent rights clause. Buyer has been advised that the Government, upon request, delays dissemination of the abstract for a period not to exceed one year and in exceptional circumstances may authorize additional delay for good cause shown. Seller will include this clause in every lower-tier subcontract hereunder involving experimental, developmental, or research work.
