1. INSPECTIONS

Seller will keep records evidencing inspections and their results and will make these records available to Buyer and the Government, where applicable, during contract performance and for four years after final payment.

2. BUYER'S USE OF DATA AND INFORMATION

(This article applies only if this contract is issued under a Government prime contract or subcontract.)

Seller agrees that any data such as drawings, instructions, or information furnished to Buyer in connection with this contract will be free from confidential, proprietary, or restrictive-use markings, other than statutory patent, copyright, U.S. Government security notices, or properly applied restrictive legends permitted by appropriate FAR, Department of Defense FAR Supplement (DFARS), or NASA FAR Supplement clauses incorporated herein. Buyer, its agents, or its assignees may duplicate or use such documents in connection with the manufacture, use, or disposition of the material furnished under this contract and may remove, obliterate, or ignore any such marking as may be on such documents unless such markings are specifically permitted by applicable FAR, DFARS, or NASA FAR Supplement clauses. 4. SUBCONTRACTING

(This article applies only if this contract is a subcontract under a U.S. Government prime contract.)

Seller agrees that no subcontract placed under this contract will provide for payment on a cost-plus-a-percentage-of-cost basis.

(This article applies only if this contract is a subcontract under a U.S. Government prime contract.)

This article includes representations and certifications that Buyer generally is required to obtain from Seller in order to comply with various provisions of its Government contracts. If, upon receipt of a solicitation that precedes a contract that will incorporate these terms and conditions, Seller believes it is not prepared to make these representations and certifications, it will so notify Buyer as part of its response to the solicitation.

By the acceptance of this order, Seller makes the following representations and certifications:

(D) Certification Regarding Debarment, Suspension, Proposed Debarment, and Other Responsibility Matters

Seller certifies that, to the best of its knowledge and belief, it, or its principals, is not presently debarred, suspended, proposed for debarment, or ineligible from entering into contracts with the Executive Branch of the Federal Government.

(E) Clean Air and Water Certification

- (i) Seller certifies that at the time it submitted its proposal none of the facilities to be used in the performance of this contract were listed on the Environmental Protection Agency (EPA) List of Violating Facilities.
- (ii) Seller further certifies that subsequent to submittal of its proposal and prior to award of this contract it has not received any communication from the Administrator, or a designee, of the EPA, indicating that any facility that Seller proposes to use for the performance of this contract is under consideration to be listed on the EPA List of Violating Facilities.

Seller expressly waives any immunity under industrial insurance, whether arising out of statute or source, to the extent of the indemnity set forth in this paragraph (A).

(B) Commercial General Liability. If Seller or any subcontractor thereof will be performing work on Buyer's premises, Seller shall carry and maintain, and

ensure that all subcontractors thereof carry and maintain, throughout the period when work is performed and until final acceptance by Buyer, Commercial General Liability insurance with available limits of not less than one million dollars (\$1,000,000) per occurrence for bodily injury and property damage combined. Such insurance shall contain coverage for all premises and operations, broad form property damage, contractual liability (including, without limitation, that specifically assumed under paragraph (A) herein) and goods and completed-operations insurance with limits of not less than one million dollars (\$1,000,000) per occurrence for a minimum of 24 months after final acceptance of the work by Buyer. Failure of Seller or any subcontractor thereof to furnish Certificates of Insurance, or to procure and maintain the insurance required herein or failure of Buyer to request such certificates, endorsements or other proof of coverage shall not constitute a waiver of the respective Seller's or subcontractor's obligations hereunder.
- (F) Self-Assumption. Any self-insured retention, deductibles and exclusions in coverage in the policies required under this article shall be assumed by, for

20. Export Control Requirements

(This clause applies only if Buyer furnishes data to Seller.)

Seller agrees to comply fully with all applicable U.S. laws and regulations as they may apply to the export of any hardware, software, defense service, or technical data (collectively "Data") provided by, through or with the cooperation of Seller in the performance of this subcontract in the U.S. or abroad or under any export license or exemption issued to Buyer. 22. NOTICE OF THE REQUIREMENTS OF DFARS 252.225-7014, *PREFERENCE FOR DOMESTIC SPECIALTY METALS, ALTERNATE I* (HEREINAFTER "SPECIALTY METALS CLAUSE")

(This article applies only if this contract is issued under a Department of Defense (DoD) prime contract or subcontract under a DoD prime contract.)

DoD's interpretation of this specialty metals clause is that it prohibits the contractor (including its suppliers at every tier) from incorporating into military parts, components, and/or end item deliverables "specialty metals" (identified in the clause, including titanium and stainless steel) which have been melted outside the United States, its possessions, or Puerto Rico, unless certain limited exceptions set forth in the clause or DFARS Subpart 225.7002-2 apply. One such exception is for specialty metals melted in a qualifying country or incorporated into an article manufactured in a qualifying country. Those countries are listed at DFARS 225.872-1(a) or (b). Since the United States is not listed as a qualifying country, DoD does not consider it to be a qualifying country. Even if a qualifying country exception applies, the source for specialty metals melted outside the United States may also have to be listed in an applicable Qualified Products List (QPL), such as that set forth in Douglas Material Specification (DMS) 2201, *Procurement from Foreign Sources - Metallic Raw Material*. Please check your purchase order carefully for any such requirement. If your purchase order contains this requirement, you must comply with its provisions unless you apply for and are granted, through The Boeing Company, one or more of the limited exemptions authorized under the specialty metals clause.

Common Terms and Conditions Guide
Section 4 – Additional General Provisions

Clause Number: 4003
Effective: 11/12/2004
Page: 14 of 14

If your organization is issued a purchase order with the specialty metals clause, compliance to the following is strongly encouraged:

- a. Your Quality Assurance Personnel, particularly Receiving Inspection, (i.e. where in-coming material and certifications are verified), should be made aware of specialty clause requirements, and ensure that no foreign melted specialty metals are utilized to fabricate any components for use on a product to be supplied to DoD unless they are melted in a qualifying country.
- b. If a distributor or other subtier supplier is the source of your material, ensure that the specialty metals clause requirements have been flowed down. Also take the necessary steps to ensure that your supplier provides only specialty metals (such as Titanium or stainless steel) that have been melted within the United States or a qualifying country and, if required, proper certifications are issued.

If your organization needs further information and/or assistance, please contact the Boeing Procurement Quality Representative assigned to your facility or identified in your purchase order.
